

312photobooth Digital-Retro Model 001 - Prototype #001 - 2008

Digital-Retro Catalog 2011

A Division of A&A Studios, Inc.
Made in the USA

312photobooth Custom Digital-Retro

Our Digital-Retro photoboos are made to your specifications. Our niche is just that, custom builds! We strive to recreate that much loved "vintage" aesthetic.

Our standard custom Digital-Retro models are 4 piece booths that break apart easy transport in a cargo van, or similar. (About 450# combined). We can also build one piece booths if preferred, designed primarily for permanent locations (i.e., arcades, clubs, hotels, malls, etc.). Our standard models are made of quality wood millwork & with finished panel and aluminum trim. They are built very much like the old school vintage booths, but much lighter and easier to use.

During the fabrication process, you work directly with our shop and design/build fabricators. We are a full service shop and studio, not a fly-by-night operation. We are happy to discuss our services with you in more detail via phone, email, or in person.

Standard Equipment & Features:

- Sony UPCX1 Dye-Sub Printer* (\$0.19 to \$0.68 per session, depending on media selection)
- Canon S or G Series Digital Camera* (as required per design)
- Small form factor PC, or netbook, with photo booth software (customer choice)*
- High-end strobe lighting*
- All required electrical components, cables, adapters, etc.
- NO OEM "chips" that gouge you on consumables. Buy your media at market rate from any supplier!!! No tricks, dongles, or gimmicks to lock you into consumables!
- Select Color, B&W, or Sepia via easy button or touch screen activation.
- Select different formats. Layout designs are 100% customizable. We provide support and will help to refine any layout desired.
- Easy to edit custom graphics for your business, clients, etc.
- Create custom pop-art masks, old time vintage photo masks, and much more.
- Software saves both high resolution single images, as well as the strips, to the hard drive.
- Want a credit card or bill validator installed? No problem, we have you covered!
- Need help? Well, we are here or you! Free technical support via phone or email.
*(*12 month 312photobooth limited warranty)*
